When individuals with intellectual/developmental disabilities (I/DD) are diagnosed with dementia, the person and their caregivers must navigate new territory in a dual diagnosis.

The overall outcome is to provide person-centered care and increase the quality of life for people with I/DD and dementia and their caregivers.

This educational offering provides 1 (one) continuing nursing education contact hour.

Alzheimer's Resource of Alaska is approved as a provider of nursing continuing professional development by Montana Nurses Association, an accredited approver with distinction by the American Nurses Credentialing Center's Commission on Accreditation.
