People connect in many different ways, but communication is one of the most important ways to connect with others. When language is lost due to a cognitive change, how do we maintain our connection? How do we find out what our care partner needs?

Join us as we explore the many types of communication and strategies available to use when the person for whom we care has a progressive dementia. Learn to listen with your ears and your heart when honoring connection!

*Free to attend! Registration required. Share with friends and family.*
