In this informative session, we will delve into the crucial financial decisions that caregivers encounter when faced with symptom onset. Learn how to develop a comprehensive plan to cover the costs of your loved one's care while ensuring the financial well-being of the community spouse and other dependents.

Participants will be guided through a workbook designed to aid in the creation of a personalized plan and to equip them for productive interactions with legal, financial, and medical professionals.

*Free to attend! Registration required.
